

## REMARKS

This amendment to the claims is in response to the substance of the telephone interview with the examiner on April 25, 2005 and the Interview Summary filed by the examiner on April 29, 2005.

It is noted that the examiner's statement of the substance of the interview on the Continuation Sheet is in accordance with Applicants attorney's recollection of the interview. During the interview, Applicants' attorney understood the examiner's position that symmetrical indicia could negate the distinction of "direct image" indicia. Since this point was first communicated during the interview, Applicants' attorney stated that he was unable to make an immediate decision on an appropriate response, and that he wished to have time to consider a response, and anticipated that the examiner would issue a further action.

Respectfully,
